

1 Scope

1.1 These General Terms and Conditions apply when companies within the group, Infracom Group AB ("Infracom"), provides a service ("Service") to an enterprise customer ("Customer"). The Service is further specified in the agreement between the Customer and Infracom ("Agreement").

2 Order and delivery

2.1 The Agreement will be considered to have been entered into upon execution by both Parties or, if this takes place earlier, when Infracom has confirmed the Customer's order in writing or when Infracom has begun to provide the Service to the Customer.

2.2 The Service shall be ordered as specified by Infracom.

2.3 The Customer shall state the current postal address / email address to which the Customer wishes Infracom to send invoices and other notifications.

2.4 The Customer shall provide, on Infracom's request, such information which Infracom needs to provide the Service, including information about employees or contractors of the Customer, as well as other users of the Customer who use the Service ("Users"). The Customer shall notify Infracom of any changes to such information without delay. The Customer is responsible for the accuracy of the information provided and responsible for informing the Users that information about them has been submitted to Infracom.

2.5 "Agreed Delivery Date" means the date upon which the Service shall be provided in accordance with the Agreement.

2.6 "Actual Delivery Date" means:

a) the date upon which Infracom has started to provide the Service,

provided the Service has been approved by the Customer or, if the Customer has not given written notice of complaint in respect of the Service, within two (2) weeks, or;

b) the date upon which Infracom provides the Service in accordance with the Agreement following rectification by Infracom of such deviations from agreed specifications which were the subject of a complaint in writing by the Customer.

c) a deviation that is only of minor significance for the intended use of the Service shall not however affect the determination of Actual Delivery Date.

2.7 Infracom shall provide the Service no later than the Agreed Delivery Date or, where no Agreed Delivery Date has been agreed, within a reasonable time from the Customer's complete and accepted order.

2.8 Immediately after delivery of the Service, the Customer shall examine the Service and, where applicable, the equipment delivered. The Parties may agree that Infracom shall carry out delivery tests in which case the Customer is responsible for the costs of such tests unless otherwise agreed.

2.9 If the Actual Delivery Date occurs after the Agreed Delivery Date and the delay is due solely to Infracom, Infracom, upon written request by the Customer, will be liable to pay liquidated damages. Liquidated damages will be calculated to one (1) per cent of an amount equal to the fixed recurring fees for a twelve-month period for the affected Service per each commenced week of delay. However, liquidated damages shall not exceed twelve (12) per cent of the above stated amount. When calculating liquidated damages, traffic fees under the Agreement shall not be

included in the fixed recurring fee.

Furthermore, liquidated damages are based on only those parts of the Service, if any, that cannot be put into use as a result of the delay. Nor shall liquidated damages be paid for such time as Infracom makes equivalent services available to the Customer.

- 2.10 If the delay is not due to Infracom, or otherwise because of unforeseen events that Infracom could not reasonably have foreseen, Infracom may postpone the Agreed Delivery Date to an appropriate date taking into consideration the circumstances. If such delay is due to the Customer, Infracom is entitled to compensation for direct costs caused by the delay.

3 Infracom's provision of the Service

- 3.1 Infracom provides the Service via a connection to the public communications network that is owned by Infracom or otherwise is at Infracom's disposal ("Infracom's Network"). Infracom will state the location of the connection (the "Connection Point"). If the Service is provided via Infracom's fixed network, only Infracom may undertake connection of lines to the Connection Point.
- 3.2 Infracom will provide the Service on a professional basis and in accordance with the Agreement.
- 3.3 Infracom is entitled to engage subcontractors in order to fulfil its obligations in accordance with the Agreement. In such case, Infracom is liable for the subcontractor's work.
- 3.4 Infracom will continuously develop its Services. Infracom is entitled to amend or modify the Service, provided that the Service's performance or functionality does not deteriorate in more than negligible extent as a consequence of such amendment. Such amendment or modification shall be conducted in such a way as to limit any disruptions.

Amendments or modifications to the Service may result in a need for the Customer's own equipment to be adjusted. The Customer is liable for any costs of adaption of its own equipment.

- 3.5 Infracom may make changes to the Service if the use of the Service results in damage or risk of damage to Infracom or any third party, for example, because of the Customer's use in violation of section 5.1 a) – f), or if Infracom is required to change the Service due to a change in law or due to court or governmental decisions. In such case, the Customer will be informed as soon as possible.
- 3.6 Infracom may discontinue the Service, if Infracom replaces the Service with any other service of equivalent technical performance and functionality. Infracom will then inform the Customer not later than sixty (60) days in advance. If the Customer does not accept the change, the Customer has the right to cancel the Service in writing within thirty (30) days from such notice.
- 3.7 Due to the structure of Infracom's Network or due to technical limitations, it may not be possible to use certain Services and certain equipment at all locations.
- 3.8 Infracom will take measures concerning Infracom's Network in order to avoid network congestion. Such measures may concern prioritisation or other specific handling of certain traffic. The measures taken may affect the quality of some Services, e.g. a temporary reduction of the network's speed.
- 3.9 Infracom has the right to limit the availability of the Service to the extent necessary for expansion or otherwise for technical, maintenance, or operational purposes. Infracom shall in such case seek to minimize the interruption period and take the measures necessary for the Customer to cause the least possible inconvenience. Infracom shall to the extent possible inform the Customer of any planned interruptions. If a service fixed time

for periodic maintenance has been agreed, this will be stated in the Agreement.

3.10 Infracom allocates to the Customer subscription number, passwords, and other codes ("Identification Data") that are necessary for using the Service. Infracom may change the Identification Data for technical, operational or other specific reasons, or due to regulations or decisions issued by public authorities.

The Customer shall be notified of such changes without delay. The Customer shall have no rights to Identification Data after the termination of the Agreement, unless otherwise agreed to in writing between the Parties, or permitted by law.

3.11 The Customer's right to use the Service in another operator's network within EU/EEA without surcharge (so called "Roam Like At Home"), is specified for each Service. In such case, Infracom has the right to limit the available data volume according to the EU regulation. Any limitations of the data volume (so-called "Fair Use Policy" or "FUP"). Further, the Customer's right to Roam Like At Home is limited to temporary use of thirty (30) days. If such use is not temporary, Infracom reserves the right to charge the Customer a surcharge according to the current roaming tariff or discontinue roaming. For more information of Roam Like At Home and limitations, see Infracom's website www.infracom.se.

3.12 Infracom discloses the name, address and telephone numbers attributable to the Customer to companies providing directory inquiry services. The directory inquiry services company is then responsible for the processing of this data after the said disclosure. The Customer has the opportunity to oppose such a disclosure by providing written notice to Infracom.

4 Troubleshooting

4.1 "Faults" means that the Customer is unable to use the Service in accordance with the Agreement. Incidents, which do not prevent the Customer from using the Service, or that are only of minor significance for the Customer are not classified as a Fault for the purposes of the Agreement. Infracom must remedy Faults in accordance with the terms in the Agreement, or, if the Agreement does not contain fault management provisions, within a reasonable time. Infracom is responsible only for Faults due to Infracom. For example, Infracom is under no obligation to remedy Faults:

- a) when the Fault is attributable to a third party's network, or;
- b) when the Fault has been caused by adverse transmission or reception conditions regarding radio communication, or;
- c) when the Fault has been caused by viruses or other external attacks on the Customer's or a third party's software, or the Fault otherwise is caused by third parties or by circumstances outside Infracom's control and unless it may reasonably be considered that Infracom will remedy the Fault, or;
- d) when the Fault is otherwise due to such circumstances as described in section 3.7.

4.2 If the Customer has notified a Fault that has been caused by the Customer or a third party for whom the Customer is liable (e.g. incorrect or negligent use of the Service or change of the Customer's equipment performed by a party other than Infracom), Infracom will be entitled to compensation from the Customer. Compensation may be required for work resulting from the Customer's fault notification, in accordance with Infracom's price list applicable from time to time. The

same applies if Infracom finds, after investigation, that no Fault exists.

4.3 If the Service could not be used due to a Fault in the Service that is due to Infracom, the Customer will be entitled to a price reduction. A reduction will be made as an amount corresponding to the part of the non-usable Service's fixed recurring fees, calculated for the period of the delay or the duration of the Fault from the time of its notification to Infracom. Compensation pursuant to the provisions of this section shall however not apply, if the Parties have agreed on specific service levels or other compensation due to Faults regarding the Service.

4.4 If, during installation or troubleshooting, specific construction work is required, Infracom shall be entitled to compensation for work performed according to the price list applicable from time to time.

5 The Customer's use of the Service

5.1 The Customer may use the Service for its own use and for the purpose stated in the Agreement. The Customer is for example, responsible for ensuring that the use of the Service does not:

The Customer is also responsible for the consumption of electricity needed for use of the Service.

5.5 The Customer shall not be entitled to sell or

sublicense the Service to any third party.

The Customer must store Security Codes and Cards that are part of the Service in a secure way to prevent access by unauthorised persons. The Customer is responsible to Infracom for all use of the Service. The Customer is however not liable for unauthorized use of the Service that occurred after Infracom, following the Customer's notification, discontinued or restricted the Service, Security Codes or Cards. However, the Customer's liability to pay fixed recurring fee for the Service remains unchanged.

- 5.7 Any permits that may be required for the use of the Service must be procured by the Customer. If Infracom requires a permit install or maintain lines or the corresponding up to the Connection Point, the Customer shall, at Infracom's request, obtain such permit at no cost to Infracom.

terminate the affected Service in writing with effect from the date the price increase would have entered into force. If such notice of termination is not given, the Customer is deemed to have approved the new fees. However, a price increase that is due to an amended provision of law or because of judicial or administrative decisions enters into force no later than at the same time as the provision or the decision enters into force.

- 6.3 The Customer shall pay invoices within thirty (30) days from the invoice date, unless otherwise agreed. Advance payment under section 6.9 shall be made no later than the date specified by Infracom.
- 6.4 Billing of the Service begins at the time agreed by the Parties in the Agreement or otherwise on the Agreed Delivery Date or, if delivery is delayed by reason solely attributable to Infracom, from the Actual Delivery Date. If the Customer uses the Service prior to the Actual Delivery Date, for instance in the case of partial delivery, the Customer shall pay the agreed fees for such use.
- 6.5 In the event the Customer fails to make payment on due date, Infracom shall be entitled to compensation for payment reminders, collection charges as well as penalty interest on arrears according to law. If the Customer, despite a reminder and discontinuation of the Service, does not pay the overdue invoice, all other compensation related to the Service that have not yet been invoiced shall also be considered due for immediate payment.
- 6.6 Infracom has the right to assign its rights to payment under the Agreement to a third party.
- 6.7 The Customer is liable to pay the fixed fee even if Infracom has discontinued or limited the Service in accordance with section 7.1 or section 7.3, first sentence. Infracom has the right to charge a separate fee for re-opening a discontinued or limited Service.

- 6.8 Infracom is entitled during the term of the Agreement to request advance payment or require the Customer to provide security for the due fulfilment of the Agreement if a credit check shows this to be justified. No interest is paid on advance payments. Infracom is furthermore entitled to set off advance payments or pledged security against its outstanding receivables, including the costs stated in section 6.6.
- 6.9 Any refund of the fee to the Customer is firstly done by deduction against future invoices and secondly through a separate payment to the Customer. Any damages and liquidated damages are regulated by separate payment to the Customer.

The Customer may not, without Infracom's written consent, repair, perform service on, make additions or changes to, or remove parts or markings regarding the ownership of Customer Premises Equipment. The Customer is responsible for ensuring that the information about the Users is accurate and that the information is promptly provided in accordance with Infracom's instructions.
